I'm aFull Stack Web3 Developer with 2 years of experience building scalable web applications using MERN and Next.js. Skilled in creating responsive UIs with React and Tailwind CSS, developing backends with Node.js and Express, and managing MongoDB databases. Experienced in Web3, including blockchain integration, smart contract development (Solidity/Hardhat), and dApp deployment, bridging modern web with decentralized technologies

PROFESSIONAL EXPERIENCE

(DEC/2023 AND WORKING NOW)

FULL-STACK DEVELOPER (MERN & NEXT.JS) CIRCLE X PVT LTD

- Built scalable web applications using MERN stack (MongoDB, Express.js, React, Node.js)
- Developed SEO-friendly, high-performance UIs with Next.js & Tailwind CSS
- Designed and integrated REST APIs for smooth frontend–backend communication
- Explored Web3 development, including blockchain concepts & smart contracts
- Tools: Git, GitHub, VS Code, Postman, Figma, Docker

(JAN/2023 AND DEC/2023)

FRONTEND DEVELOPER (REACT.JS) CIRCLE X PVT LTD

- Built and optimized responsive, user-friendly interfaces using React.js
- Worked with international clients, applying global design standards to web applications
- Delivered end-to-end design flows, from research and wireframes to functional React prototypes
- Enhanced user engagement through clean, intuitive, and accessible frontend experiences
- Led branding and UI/UX design initiatives in collaboration with senior developers
